## SUMMARY:

Currently, I am a student in DIT University pursuing B.Tech. in Computer Science and Engineering. I have done my summer vocational training in Android. I like to work on creative and innovative projects. Working in different technologies makes me adaptable.

## SKILLS:

### Technical Skills

- Programming Languages : C, C++, Java, Python.
- Data Structures and Algorithms
- Web Development - HTML, CSS, Javascript, PHP, Wordpress, Hugo.
- Android Development

### Non-Technical Skills

- Time management
- Team-Work
- Adaptability

## PROJECTS

**1.Smart Assignments (2018)** - Made a website to be used by University for digitalizing assignment submission. Contributed in the frontend part of the website.

**2.Flappy Bird (2019)** - Cloned Flappy bird android game using libGDX library in Java.

**3.simplyHTTP (2020)** - Javascript library to make HTTP requests simpler. Uses XMLHttpRequest, Promises and Async/Await to make HTTP requests like GET/POST to APIs.

**4.Early Detection of Alzheimer's using ML (2020)**  
- Major project on detecting Alzheimers using various algorithms and techniques to get accurate results

## WORK EXPERIENCE:

### MOMENTX ONLINE SERVICES LLP

#### Bitsgreet (May 2019 - May 2021)

I have worked as front-end developer in the team. It's an e-commerce start-up in which we provide cakes and flowers delivery services within Dehradun.

### CETPA INFOTECH PVT. LTD.

#### Android Training (May 2019 - June 2019)

Completed training in Android with Java.  
Made demo applications like music player, location finder as a part of training.  
Made a Flappy Bird Clone as final project

## EDUCATION SUMMARY:

### BACHELOR OF TECHNOLOGY (2017 - 2021)

#### DIT University
